I'm a developer since 2016. I worked doing some projects as freelance and I work with contract from march 2021. I love to structure solutions from other designers because they are experts on UX/UI y I can learn from they. In my work I firstly view the needs, analyse some solutions, choose tools and finally I begin to code with the better tools and the faster solutions

## TOOLS AND KNOWLEDGE

**For code:** HTML, CSS, JavaScript, Sass, Pug HTML, Git, Github, Php, Laravel, Mysql, Vuejs, JQuery, Bootstrap

**Basic wordpress:** Elementor, woocommerce, personalizing of templates, install plugins, backups

**Advanced Wordpress:** Custom Post Type, Custom Fields, coding of templates, coding of plugins

**For productivity:** Slack, Trello, Google meet, Google calendar, shortcut

**For design:** Figma, Adobe XD, Photoshop

## PROFESIONAL EXPERIENCE

### Gold Media Tech

March 2020 – Currently

- I worked 1 year as freelance and right now I'm a contractor
- My responsibilities are focused on to do the design from design department to elementor or code.
- I have done solutions using elementor and pure code using css, html and javascript on frontend and I have used php for plugins or templates.
- Work for some startups around USA. Principal project Playgarden Online using wordpress Here I did a template integrated with elementor for another sections.
- I work doing templates with html, css and js. I use too elementor I do all design from design department.

### Freije

May 2020 – November 2021

- I worked resolving problems on design using css and js for a lot of needs.
- I did a page that allowed the company to earn +2,5 in 1 month.
- Template was structured on elementor and pure code in important parts
- Design did for an external designer

### Rappi

2020 – 2 weeks – Champions league

- I had a participation doing a web on code using html, css and js.
- The project was used for Champios league session on Latino América 2020

## Cardigan men

2019 – 2020

- I worked near to 1 year as freelance
- It was an ecommerce I did on woocommerce in USA.
- I used paypal and stripe to payment
- Ecommerce did using elementor and code for web design.
- Closed on pandemic time. It didn't have providers

## MTF Autoservice

2016 – 2019

- I worked around of 3 years
- I worked as freelance like on other companies. But here I worked doing software for management the company.
- The software allows to do bills, register and management of clients, provider, employees, products, services.
- For that project I worked using laravel, php, vuejs, jquery, bootstrap, mysql and github
- I did here a web on wordpress where clients can watch the products from the project.
- The company gave me a plugin it connected with a api I did on the project on laravel

## EDUCATION AND CERTIFICATIONS
